GOD'S OWN KIDS
GO KIDS
INTERNATIONAL PRE & PRIMARY SCHOOL

About Our School

God's Own Kids is a one of its kind premium and futuristic preschool, which has a child-oriented system of education which ensures the growth of every child. The child will undergo here a natural process of instinctive learning without the usual rigors of studying.

GO KIDS aims to achieve a wholesome growth of the child by enhancing the mind, energizing the body and enriching the soul.

While keeping pace with the advancements in education, the system prepares the child for meeting future challenges.

Go Kids ensures that the environment here keeps the child happy, inquisitive and enthusiastic to learn and discover more.

Age-Wise Curriculum

A holistic and integrated learning journey for early childhood development.

Our Learning Approach

Overview

At Gods Own Kids International Pre and Primary School, we follow a holistic and integrated educational approach that combines Montessori principles with traditional teaching methods. Our curriculum is designed to nurture every child's intellectual, physical, social, emotional, and creative development.

We focus on building strong foundations in language, literacy, mathematics, and environmental awareness while encouraging curiosity, independent thinking, creativity, and problem-solving skills. Through hands-on experiences, interactive activities, structured learning, and exploration, children develop confidence and essential life skills.

Our child-centred approach ensures that every child earns at their own pace in a supportive and engaging environment, preparing them for lifelong learning and future academic success.

Learning Approach

Montessori Learning Approach

Our Montessori approach encourages children to learn through exploration, practical experiences, and hands-on activities. Children are given opportunities to work with specially designed learning materials, develop independence, improve concentration, and discover concepts through self-directed learning.

Traditional Learning Approach

Our traditional teaching approach focuses on structured lessons, guided instruction, and age-appropriate academic activities. Children develop essential skills in English, mathematics, environmental studies, and other subjects through interactive teaching and regular practice.

Integrated Curriculum

We combine Montessori and traditional teaching methods to create a balanced learning experience. This integrated approach develops academic knowledge alongside creativity, critical thinking, communication, social skills, and, practical life abilities.
